DATE MAILED: 03/09/2004

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 0 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 0 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office Patent Legal Administration at (703) 305-1383. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

Claim 51: line 6, "a bypass" has been changed to --said bypass--.

The change has been made to provide antecedent basis for the bypass transistor in order to comply with the 35USC 112, second paragraph and to place the application in a condition for allowance.

2. The following is an examiner's statement of reasons for allowance: the rejection of claim 52 under 35USC 102(e) has been withdrawn because the applied reference does not meet the requirement under 35USC 102(e). The amendment filed 2/3/2003 has overcome the technical deficiencies and the prior art of record. The prior art of record fails to teach or fairly suggest first and second quick start up circuits as called for in claims 41-42, quick start up circuit comprising a bypass transistor, a control transistor switch controls said bypass transistor, a capacitor connected to a base of said control transistor switch as called for in claim 46, quick start up circuit comprising a single NPN transistor, a capacitor connected to a base of said single NPN transistor, a start up quickening voltage is applied, for said predetermined length of time, to said piezo resonator from said power supply voltage Vcc line via said NPN transistor, thus temporality increasing electric current that flows in said piezo resonator to forcibly vibrate said piezo resonator and making start up of said piezo faster as called for in claims 52. Therefore, claims 41-42, 46 and 48-52 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, TIMOTHY P CALLAHAN can be reached on 571-272-1740. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
